

MINO PEPTIDES · REGENRX HEALTH

A UNIFIED PLATFORM

*Supply and
clinical practice,
built to meet
the same
standard.*

A COMBINED INTRODUCTION · EDITION 2026

Two businesses. One standard. A shared commitment to doing regenerative medicine the right way.

Mino Peptides and RegenRX Health Institute are complementary businesses that share founding leadership, operating philosophy, and clinical standards. Together, they form a platform that addresses both ends of the regenerative medicine value chain: pharmaceutical-grade supply and the clinical infrastructure to use it well.

Mino is the wholesale side — a B2B platform supplying licensed practices with verified peptide compounds from cGMP-compliant sources. RegenRX is the clinical side — a physician partnership program and flagship institute practicing regenerative and longevity medicine with the same discipline a legitimate clinical specialty demands.

They can be engaged independently, and most accounts do exactly that. But for partners who want to see both sides, this document is the short introduction.

MINO PEPTIDES

The supply side.

Wholesale peptide platform. 39 compounds, 6 therapeutic categories, cGMP-sourced, third-party verified, cold-chain delivered to licensed clinical accounts.

REGENRX HEALTH

The clinical side.

Clinical platform for regenerative and longevity medicine. Flagship institute in Paramus, NJ plus a growing physician partnership network under an MSO-PC architecture.

Mino at a glance.

Mino Peptides is a wholesale supplier of pharmaceutical-grade peptide compounds to licensed clinical accounts. The portfolio is deliberately focused, the sourcing is deliberately verified, and the regulatory labeling is deliberately honest.

39

COMPOUNDS IN PORTFOLIO

6

THERAPEUTIC CATEGORIES

3

WHOLESALE PRICING TIERS

THE SIX CATEGORIES

Regeneration. Tissue repair, gastrointestinal healing, connective tissue recovery.

Metabolic. Weight, glycemic control, body composition.

Longevity. Cellular aging, senescence, healthspan research.

Performance. Recovery, lean tissue support, endurance.

Cognitive. Focus, memory, neuroprotection.

Vitality. Skin, hair, hormonal balance, aesthetic practice.

ACCOUNTS WE SERVE

Medical spas · aesthetic practices · longevity and preventive medicine clinics · integrative medicine groups · dermatology adjacencies · functional neurology and psychiatry · sports medicine practices · enterprise multi-location networks.

THE CREDENTIALING PROCESS

Every account begins with a brief credentialing review. Typical turnaround is three to five business days. First orders ship within 48 hours of approval from our cold-chain fulfillment facility.

RegenRX at a glance.

RegenRX Health Institute is a clinical platform for regenerative and longevity medicine, anchored by a flagship facility in Paramus, New Jersey and extending through a growing network of physician partner locations. Partnering physicians retain clinical independence and gain access to verified supply, protocol libraries, CME, and institutional brand infrastructure.

WHAT PARTNERS RECEIVE

Therapeutics Supply. Partner-tier access to the Mino Peptides portfolio.

Clinical Protocol Library. Curated reference protocols maintained by the RegenRX clinical team.

Documentation Infrastructure. Intake, consent, charting, and compliance templates built for regenerative practice.

Continuing Medical Education. Grand rounds, workshops, and specialty tracks.

Brand & Referrals. Directory listing and affiliated brand positioning.

THE TWO-ENTITY ARCHITECTURE

RegenRX Health LLC is the management services organization. It provides non-clinical operational services and does not practice medicine.

RegenRX Health Partners LLC is the professional corporation through which partnering physicians deliver clinical services. Preserves prescribing authority, clinical judgment, and patient relationships.

This MSO-PC structure is intentional and reflects the legal framework governing such arrangements in most states.

WHO REGENRX IS FOR

Established practices adding regenerative services · physicians transitioning from hospital employment · multi-location physician groups building a regenerative service line · integrative, aesthetic, functional, and internal medicine clinicians.

Leadership and contact.

Both businesses share founding leadership and a common operating philosophy. The clinical and commercial sides of the platform are coordinated at the leadership level, with independent operations on the ground.

CHIEF EXECUTIVE OFFICER

Elizabeth Straus

Co-Founder of Mino Peptides. Former EVP of a multi-state healthcare operator and co-founder of a regional physician MSO. Extensive background in healthcare operations, finance, and scaling clinical enterprises.

CHIEF MEDICAL OFFICER

Brandon Howard, MD

Co-Founder of Mino Peptides and Medical Director of RegenRX Health Institute. Board-Certified in Internal Medicine. Clinical leadership for both the wholesale platform and the partnership program.

REQUEST A CONVERSATION

Whether your interest is in becoming a wholesale account with Mino, exploring a RegenRX physician partnership, or discussing the platform as a whole, the right first step is a brief introductory conversation.
