

THE MINO COMMITMENT

Every compound in the Mino portfolio is sourced from cGMP-compliant manufacturers, subjected to third-party analytical verification, and delivered through a cold-chain logistics network built for pharmaceutical integrity.

We do not serve the consumer market. We exist to give licensed clinicians and their compounding partners a wholesale infrastructure worthy of the medicine they practice.

BECOME AN ACCOUNT

Licensed practitioners, medical spas, aesthetic practices, and longevity clinics may apply for a wholesale account through a brief credentialing review.

Cellular aging and senescence

PERFORMANCE

Recovery, strength, endurance

COGNITIVE

Focus, memory, neuroprotection

VITALITY

Skin, hair, hormonal balance

MINO PEPTIDES

*The quiet
infrastructure
of modern
medicine.*

A WHOLESALE PEPTIDE PLATFORM
FOR LICENSED CLINICIANS

WHO WE SERVE

Built for the practitioner.

Mino Peptides is a B2B wholesale platform supplying medical spas, aesthetic practices, longevity clinics, and integrative medicine groups with pharmaceutical-grade peptide compounds.

Our accounts range from solo physician practices to enterprise networks operating across dozens of locations. Every relationship begins with credentialing and continues with dedicated account management, clinical reference materials, and predictable supply.

THIRD-PARTY COA VERIFIED

The difference between a commodity supplier and a clinical partner is accountability at every link in the chain.

WHY MINO

SOURCING INTEGRITY

Direct relationships with cGMP-compliant manufacturers. No grey-market intermediaries, no repackaged research chemicals.

CLINICAL DOCUMENTATION

Every compound ships with a Certificate of Analysis, storage protocol, and clinical reference material for the prescriber.

REGULATORY HONESTY

FDA-approved compounds, investigational compounds, and research-only materials are labeled accurately. We do not blur these lines.

COLD-CHAIN LOGISTICS

Temperature-controlled fulfillment with tracked delivery to maintain compound stability from facility to clinic.

ACCOUNT PARTNERSHIP

Dedicated sales and clinical support. We work with your practice, not at it.
